Description of the accident (claimant's words)

I was changing lanes on a main road in Conroe, Texas, checking my mirror and signaling as I had been doing for the whole drive. The other vehicle came alongside my rear quarter panel and made contact with the side of my car, pushing me toward the shoulder before I could stop. I pulled over right away and stayed at the scene until the officer arrived. I have given the same description of what happened to everyone who has asked me about it, and nothing I recall has changed since that afternoon. My back began to tighten within a few hours, and I have since been treated for a back strain. I am the named driver on this policy and I am submitting this statement so the claim can move forward.
