Description of the accident (claimant's words)

I was backing out of a parking space at a shopping center in Conroe, Texas, when another vehicle came down the aisle and struck the rear passenger side of my car. I had checked my mirrors and was moving slowly, so I did not see the other car until contact was made. After the collision I felt a sharp pain in my right shoulder and went to urgent care that same day for evaluation. I have been asked about this incident more than once, and I have given the same account each time. Some small details have come back to me since then, such as the color of the other car's bumper and where the driver was standing, but the core sequence of events has not changed. I am the named driver on this policy and I have provided my vehicle information and insurance details as requested.
