Description of the accident (claimant's words)

I was changing lanes on a busy road in Pasadena, Texas, when the car in the lane beside me drifted over and struck the side of my vehicle. I had checked my mirror and signaled before moving, so I did not expect the impact. Both cars jolted, and I felt my neck snap sideways while my lower back took the force of the seat. I stopped at the shoulder and waited for the other driver and the responding officer. I have given the same description of what happened each time I have spoken about it, whether to the other party, the officer, or the insurance representative. I am the named driver on this policy and I have been driving this vehicle as the primary operator. Since the collision I have been treated for neck and back strain and I am following the recommended care plan.
