Claim Notes

Claim number:	C-1290
Claimant:	Ronald Bradford
Adjuster:	Darin Tyler

5-19-25
The insured reported a rear-end collision at a slow-moving intersection, with the claimant's vehicle stopped in front. The claimant is represented by counsel, and the file has been opened for bodily injury and property damage.

6-24-25
Photos taken at the scene confirm the general position of both vehicles and show that the damage is mostly in line with the described impact. No independent witnesses have come forward, so the photos and the account given are the main sources for now.

8-31-25
Police and witnesses at the scene confirm the claimant was in the vehicle at the time. The driver of the insured vehicle lives with the policyholder and is covered as a household member under the policy.

11-17-25
The claimant reports a shoulder injury, and the kind and force of the crash appear to fit that injury well. No earlier injury to the same body area is known, and the claimant has given the same account in every conversation so far.

11-21-25
Treatment has followed a usual course and has tapered off as the claimant improved. Nothing in the medical notes so far suggests the course of care has been unusual.

12-7-25
No earlier damage to the vehicle is known, and nothing suggests the damage predates the start of coverage. Counsel has been informed that the claim is under ongoing review, and the file remains open pending the final medical summary.

Q: Thanks for taking the time to speak with me today. This call is being recorded for claim purposes. Can you please state and spell your full name for the record?

A: Sure. It's the name on my policy, I'll leave it at that for the recording.

Q: That's fine. Can you describe where you were when the collision happened?

A: I was stopped at a light on a main road in Pearland, in the right lane, waiting for the signal to change to green.

Q: What happened next?

A: I felt a hard jolt from behind. My head snapped forward and then back into the headrest. I looked in the mirror and saw the front of a silver sedan right on my bumper.

Q: Did you exchange information with the other driver?

A: Yes, we swapped insurance detials and phone numbers. He said he got distracted by his phone for a second. He seemed shaken but okay.

Q: Were you taken to a medical facility after the accident?

A: The paramedics checked me at the scene, and then I went to an urgent care clinic later that afternoon because my shoulder was really bothering me.

Q: Can you describe your injuries?

A: My right shoulder is sore and I have trouble lifting my arm above my chest. The pain gets worse at night. I also have a stiff neck and some headaches, but the shoulder is the worst part.

Q: Have you been seeing a doctor since then?

A: Yes, I have two follow-up appointments scheduled with an orthopedic provider and I started some physical therapy twice a week.

Q: Is there anything else you think I should know about the accident?

A: Only that I was wearing my seatbelt, and I've been missing work because I can't do my job with one arm working properly. I'm happy to send over my medical records and the clinic bills.

Q: Thank you. We'll follow up with the documents you mentioned. This concludes our recorded statement.
