Description of the accident (claimant's words)

I was driving through Conroe, Texas, at a slow speed when the car in front of me stopped suddenly and I could not avoid a head-on impact. The collision was minor in appearance, but I felt a sharp jolt through my neck and shoulders almost immediately. Since then I have been dealing with stiffness and pain consistent with whiplash, and I have been following the treatment my doctor recommended. When I first described what happened, I gave the same core account I am giving now. Some smaller details came back to me over the following days, such as the position of the other vehicle and the sound of the impact, and I have included them here for completeness. I am the named driver on this policy and I am submitting this statement in good faith.
