Claim Notes

Claim number:	C-1293
Claimant:	Lorraine Allen
Adjuster:	Darin Tyler

March 23, 2024
Reported today by the insured driver, who says a vehicle merged into the lane during a lane change and scraped along the side of the insured car. The claimant's counsel has also sent a letter of representation, so all furtehr contact will go through that office.

April 29, 2024
Reviewed the photos submitted with the first notice. They show the damage on the passenger side and confirm some of the details in the driver's account, though they do not show the moment of contact.

May 31, 2024
Spoke with the insured, who confirmed the policy is in force and that the driver listed on the policy was operating the vehicle at the time. No earlier damage to the vehicle has been reported or fuond in the file.

July 5, 2024
Police report obtained. It places the claimant in the other vehicle and records the same location and approximate sequence of events the insured described. No independent witnesses were identified in the report or in any statement since.

July 30, 2024
Appraiser inspected the insured vehicle. The damage pattern matches the described impact, and the repair estimate reflects panels and components consistent with a sideswipe.

August 28, 2024
Received a medical summary from counsel listing neck and back strain as the injuries. The kind and force of the impact fit these complaints well, and no prior injury to the same body areas appears in the records supplied so far.

September 28, 2024
Claimant gave a recorded statement through counsel. The account matched the one given in the initial call, including the sequence of the lane change and the position of both vehicles.

October 1, 2024
Treatment records have arrived and show regular visits, with new services added over the following weeks. The volume of care is well above what is typically needed for a strain of this type, so the file is being flagged for medical review.

October 19, 2024
Spoke with counsel about the growing treatment list and asked for the referral notes and imaging that support the additional services. Counsel said the records would be sent but gave no timeline.

October 25, 2024
Reviewed the policy history. The coverage on the insured vehicle was active at the date of loss, and nothing in the file suggests the damage occurred before the coverage started.

November 11, 2024
Claimant's account has stayed consistent across every contact so far, including the call, the statement, and the medical intake. The file still rests on the photos, the police report, and the physical damage, with no independent witness to the cnotact itself.

November 13, 2024
Medical review requested. Pending its outcome, the injury portion remains open, the property damage is being prepared for payment, and counsel has been told the next update will follow once the outstanding records are received.

Recorded Statement

Claim number:	C-1293
Statement of:	Lorraine Allen
Taken by:	Darin Tyler
Date:	March 27, 2024

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather just keep it to the accident, if that's alright.

Q: That's fine. We'll keep it brief. Can you tell me where you were when the collision happened?

A: I was in Houston, on one of the main freeways, heading toward the downtown exit. Traffic was moving but not fast.

Q: What lane were you in, and what were you doing at the time?

A: I was in the middle lane. I wanted to move into the right lane because my exit was coming up, so I checked my mirror and eased over.

Q: Did you signal before moving over?

A: I believe I did. I had the turn signal on for a few seconds before I started to move.

Q: What happened next?

A: As I was moving over, the car on my right sort of drifted into me. I felt a bump on the passenger side and my car pulled a little toward the shoulder. The otehr driver kept going for a second before they stopped.

Q: Were you able to see the other vehicle's lane position before you moved?

A: Not completely. It was in my blind spot for a moment, and I didn't see it until I was already partway over.

Q: Did you or the other driver exchange information at the scene?

A: Yes, we swapped insurance and contact details. The other driver seemed shaken but was polite.

Q: Have you been seen by a medical provider since the collision?

A: Yes. I've been having pain in my neck and lower back. It's mostly stiffness and soreness, and it gets worse when I sit for long periods. I've been seeing a doctor and doing some physical therapy.

Q: Is there anything else you'd like to add?

A: Just that I'm trying to get back to normal and I'd appreciate a timely response on the claim.

Q: Thank you. That concludes the statement.
