Description of the accident (claimant's words)

I was changing lanes on a busy Houston highway when a vehicle in the lane I was movnig into came alongside me and clipped the side of my car. Both of us had to swerve, and my car scraped along the guardrail before I could bring it to a stop on the shoulder. I have been the registered driver on this policy for several years, and I am the person who was behind the wheel at the time. I have described what happened the same way to the other driver, to the responding officer, and to every adjuster I have spoken with since. Within a day I began to feel stiffness across my neck and a dull ache along my lower back, which has continued and makes lifting and long periods of driving uncomfortable. My doctor has diangosed strains to both areas and recommended physical therapy.
