| **Claimant:** | Gregory Phillips |
| **Adjuster:** | Christopher Wong |

04/29/2025
Claim received for a left-turn collision at an intersection involving a concussion injury. The claimant is represented by counsel, and all further contact will go through the attorney's office.

05/15/2025
Reviewed the policy declarations and confirmed the drievr of the insured vehicle is listed as a named driver. Coverage was in force at the time of the loss.

06/01/2025
Obtained the police report, which places the claimant's vehicle at the scene and matches the account given in the first notice of loss. Nothing in the report suggests the damage predates the policy period.

06/15/2025
Statements from two independent witnesses describe the other veihcle turning across the claimant's path, consistent with the sequence in the claimant's account. The other driver has also confirmed the events as described.

06/17/2025
Photographs of the vehicles were reviewed. The damage pattern to the front qurater panel and passenger door lines up well with the impact described, and no older damage has been identified on either vehicle.

06/18/2025
Medical records show a concussion diagnosis with symptoms consistent with the force of a side impact of this type. Treatment has run somewhat lnoger than is typical for this injury, so the file has been flagged for a closer look at the treatment timeline.

08/19/2025
Searched prior claims and available medical history. No earlier injury to the same body area is on record, and no prior claims involving the claimant's head or neck have been found.

10/17/2025
Claimant's counsel provided a follow-up statement adding a few minor details about the moments before impact. The core account is unchanged from the original report, and the additions do not conflict with the witness statements or photographs.

11/15/2025
Reserves reviewed in light of the medical timeline and the consistent liability picture. File remains open pending the treating physician's final report, with the next review scheduled after that report is received.

Q: Good afternoon. This is the adjuster calling about your auto claim. This recorded statement is for claim purposes. Do you consent to being recorded?

A: Yes, that's fine.

Q: Thank you. Can you tell me where the accident happened?

A: It was at an intersection in Pearland, Texas. I was making a left turn across the opposing lanes when another vehicle hit my driver's side.

Q: What was the weather and road condition at the time?

A: It was clear and dry. Daytime, and traffic was moderate.

Q: Which direction were you traveling, and what did you see before you turned?

A: I was heading north and waiting for a gap in oncoming traffic. There was a car coming south, and I believed it was far enough away. I statred my turn, and then the other car came up quickly.

Q: Did you have a green light or a yield sign?

A: I had a green arrow for the left turn, I'm fairly sure of that. Honestly, the light was a bit hard to see from where I was sitting.

Q: Were you injured?

A: Yes. I hit my head on the window and I've had headaches, dizziness, and trouble concentrating since then. My doctor said it looks like a concussion, and I'm still going to appointments.

Q: Have you been seen by a physician since the accident?

A: Yes, I went to urgent care the same day and I've seen my primary doctor twice since.

Q: Is there anything else you'd like to add?

A: Only that I've been trying to be careful about driving because of the dizziness. Thank you.

Q: Thank you. That concludes the statement.
