Description of the accident (claimant's words)

I was making a left turn at an intersection in Pearland, Texas, when another vehicle struck the side of my car. I had the light and was moving slowly through the turn when the impact threw me against the door and then the steering wheel. I hit my head hard enough that I was dazed for several minutes, and I was later diagnosed with a concussion. I have been listed as the named driver on this policy for the entire time I have held it, and I am submitting this claim in that capacity. When I have been asked since then about the collision, I have remembered a few more details, such as the other driver's lane position and the weather that afternoon, but the core of my account has not changed from what I first reported at the scene.
