Claim Notes

Claim number:	C-1301
Claimant:	Connie Crane
Adjuster:	Darin Tyler

August 28, 2024
Reported side impact at a signalized intersection. The claimant is not represented and was seen at the scene complaining of back pain. Police attended and confirmed the claimant was seated in the vehicle when it was struck.

September 25, 2024
Scene photos show the point of impact on the driver side panel and roughly match the description given on the first call. The only other people present were passengers and a passing motorist, and no independent witness has come forward.

October 26, 2024
Damage to the vehicle appears largely in line with a side impact of the described type. No prior damage to this vehicle is recorded in our file or shown in the photos reviewed.

January 4, 2025
Claimant reports back strain and attended urgent care the same day. The presentation fits the kind and force of this crash well, and no earlier injury to the same area is known.

January 16, 2025
When re-contacted, the claimant added a few small details, such as the approach speed and lane position, but the core account has not changed. Coverage records show the policy was in force at the time of loss, and nothing suggests the damage predates it.

February 11, 2025
The driver is not named on the policy and does not live with the policyholder. The claimant has given a statement about permission to drive, and verification of that permission is pending.

April 13, 2025
Treatment followed a usual course and tapered off as the claimant improved. The injury component remains under review based on the medical records received so far.

Recorded Statement

Claim number:	C-1301
Statement of:	Connie Crane
Taken by:	Darin Tyler
Date:	August 28, 2024

Q: Thanks for taking the time to give this recorded statement. Can you state your full name for the record?

A: I'd rather just go by the claim details, if that's alright.

Q: That's fine. Can you describe where the accident happened?

A: It was at an intersection in League City, Texas. I was going through a four-way intersection with a traffic light.

Q: What was the signal showing when you entered?

A: My light was green. I'm pretty sure of that because I'd just watched it change.

Q: Did you see the other vehicle before the impact?

A: Not until the last second. It came from my right side and clipped the driver's door area of my car.

Q: How fast were you traveling?

A: Probably around the posted limit, maybe a little under it. I wasn't rushing.

Q: Were you able to brake or swerve?

A: I hit the brakes, but there wasn't time to do much else.

Q: Did you receive any medical attention after the collision?

A: Yes, the paramedics checked me at the scene, and I went to an urgent care clinic later that afternoon.

Q: What injuries are you reporting?

A: My lower back is strained. It's sore when I sit or bend, and I've been taking it easy at home since then.

Q: Did you have any pain or problems with your back before this accident?

A: No, not that I can recall. I've been fairly active and haven't had treatment for my back before.

Q: Is there anything else you'd like to add to your statement?

A: Only that I'm cooperating fully and I'm willing to provide any records you need.

Q: Thank you. This concludes the recorded statement.
