Claim Notes

Claim number:	C-1302
Claimant:	Stacy Hull
Adjuster:	Christopher Wong

3-31-25
Claim opened after the claimant reported a side impact at a signalized intersection. The claimant is not represented by an attorney and is handling the claim directly.

4-3-25
Claimant described the other vehicle stopping abruptly ahead of them, then being struck on the driver's side as they proceeded through. Claimant reports neck and shoulder pain and says they were transported to an urgent care clinic.

4-19-25
Recorded statement taken. Claimant reports a shoulder injury consistent with a side impact of this type. Claimant's medical records are being requested, and no prior injury to the same area is known from the file.

5-16-25
Physical therapy is ongoing and has continued somewhat longer than is typical for this injury. Treating provider has not yet released the claimant to full activity, so the file will remain open pending updated notes.

10-1-25
Photos of the claimant's vehicle show damage on the rear passenger side at a lower height than the impact described in the first statement. No earlier damage to the vehicle is known from prior claims or the inspection report.

10-10-25
In a follow-up call, the claimant described the direction of impact differently than in the initial report and said a different number of occupants were in the car. It is also unclear from the claimant's account which seat they were occupying at impact.

10-13-25
Other driver's statement indicates the two drivers know each other, and the braking event may have been deliberate. Coverage was in force on the date of loss, and the named driver on the policy is the person who reported the claim. Nothing in the file suggests the damage predates the policy period.

10-29-25
File referred for further review of the loss facts, the vehicle damage pattern, and the treatment timeline. Pending that review, payment decisions are on hold and the claimant has been told that additional information is needed.

Recorded Statement

Claim number:	C-1302
Statement of:	Stacy Hull
Taken by:	Christopher Wong
Date:	3-26-25

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision at the intersection in Katy, Texas. Please state your full name for the record.

A: I'd rahter just give you the details of what happened, if that's okay.

Q: That's fine, but I do need a name on the recording for our file. Please go ahead.

A: [Claimant name withheld] for the recording.

Q: Thank you. Can you describe where you were driving and which direction you were traveling when the collision occurred?

A: I was heading east on the main road and approaching the intersection with a green light, or at least I believed it was green. Traffic was moderate and it had been raining earlier, so the pavement was still wet.

Q: Did you see the other vehicle before the impact?

A: Not really. I saw a car coming from the left side, but it was already partly in the intersection by the time I registered it. I braked, but there wasn't time to avoid it.

Q: Where did the impact land on your vehicle?

A: On the driver's side, toward the front door. The airbag on my side deployed, and the whole car shifted sideways.

Q: How are you feeilng physically since the collision?

A: My right shoulder is hurting qiute a bit. I went to an urgent care clinic that same day, and they told me to follow up with an orthopedic doctor because it may be a tear. I'm also having some stiffness in my neck.

Q: Have you received any treatment since then?

A: I've had two physical therapy sessions and I'm scheduled for an MRI next week. I'm still having trouble lifting my arm above my shoulder.

Q: Thank you. Is there anything you would like to add or correct about your account?

A: Only that I was paying attention and I didn't contribute to what happened. I just want my car repaired and my medical bills taken care of.

Q: Thank you. This concludes the recorded statement.
