Description of the accident (claimant's words)

I was driving through the intersection in Katy when another car came into my side as I was crossing. The impact pushed my vehicle sideways and I felt a sharp pain in my right shoulder right away. I believe I was the only person in the car at the time, though I have since mentioned a passenger in an earlier conversation, and I want to be upfront that I may have described the direction of the impact differently then too. I am the named driver on this policy and I have the registration and license on hand. I went to a local clinic that afternoon and was told to follow up with my own doctor for the shoulder. I am providing this accuont as accurately as I can recall it and will supply any further details requested.
