Injuries reported:	shoulder injury
Investigating officer:	Officer Kimberly Ross, Badge 1023

Occupants of each vehicle

Vehicle	Seat	Name
Vehicle 1 (insured)	Driver	Stacy Hull
Vehicle 2	Driver	Micheal Reynolds

Officer's narrative

On arrival at an intersection in Katy, Texas, I found a side impact between two vehicles. Driver 1 said they were proceeding through the intersection when Driver 2 entered from the cross street and struck the driver's side. Driver 2 stated that Driver 1's vehicle, ahead of them, braked hard with no apparent reason. Driver 1 reported a shoulder injury, which is consistent with the forces of a crash of this type, and was transported for evaluation. The Passenger could not clearly say where they had been seated at the moment of impact. Both drivers and the Passenger said they knew one another before the collision. The damage to Driver 1's vehicle is on a different side and at a different height than the impact described by both parties. No earlier damage to the vehicle is known. Driver 1 is named on the policy covering the vehicle. Further review of the vehicle damage and the statements of all parties is recommended.
