Claim Notes

Claim number:	C-1304
Claimant:	Jessica Mueller
Adjuster:	Christopher Wong

5-8-25
Claim received by phone from the policyholder's driver regarding a rear-end collision at a signalized intersection. Claimant reports neck and head pain and states they were struck while stopped at a red light. Claimant is unrepresented and was given the standard claims packet.

5-29-25
Confirmed the driver is named on the policy and that the policy was in force at the time of loss. Police report obtained, which lists the claimant as a passenger-side occupant of the vehicle that was struck from behind.

7-19-25
Statements taken from two independent witnesses and the other driver. All three describe the impact the same way the claimant did. Scene photos received and reviewed; rear bumper and trunk damage appears consistent with the reported force of impact.

8-17-25
Claimant was diagnosed with a concussion at urgent care the day after the collision. The diagnosis is reasonable for a collision of this type. Medical records show no prior injruy to the head or neck area on file.

10-11-25
Claimant added a few smaller details in a follow-up call, such as the exact position of the other car before impact. The core account has not changed from the first report. Vehicle history checked; no prior damage claims on record.

10-23-25
A neighbor mentioned seeing the vehicle with body damage seevral weeks before the stated loss date. This is an unverified recollection and is being noted for follow-up. Treatment has followed a typical course and tapered as the claimant improved; the file remains open pending the final medical update.

Recorded Statement

Claim number:	C-1304
Statement of:	Jessica Mueller
Taken by:	Christopher Wong
Date:	3-24-25

Q: Thank you for taking the time to speak with me today. This recorded stateemnt concerns the collision you reported in Pasadena, Texas. Can you confirm you're comfortable continuing?

A: Yes, I'm comfortable. Go ahead.

Q: Please describe where you were and what you were doing right before the impact.

A: I was stopped at a red light on a multi-lane road, waiting to turn. Traffic was moderate, and the light had been red for maybe twenty seconds.

Q: Did you notice the vehicle behind you before the collision?

A: Not really. I was watching the light and the cross traffic. I did see headlights in my mirror at one point, but I didn't think much of it.

Q: What happened next?

A: I felt a hard jolt from behind. My head snapped forward and then back against the headrest. The airbags didn't deploy, but my seatbelt locked up pretty hard.

Q: Were you able to get out of the vehicle on your own?

A: Yes, though I felt dizzy and a bit unsteady. I sat on the curb for a while because my head was pounding.

Q: Have you sought medical care since the collision?

A: Yes. I was seen at an urgent care clinic that evening. They diagnosed a concussion and told me to limit screen time and rest. I've had headaches, light sensitivity, and trouble concentrating at work since then.

Q: Are you curretnly under a doctor's care for the concussion?

A: Yes, I have a follow-up scheduled with my primary care physician and a referral to a neurologist.

Q: Is there anything else you'd like to add about the collision or your injuries?

A: Just that I'm still having symptoms, and I'd like to be kept updated on the claim. Thank you.

Q: Thank you. This concludes the recorded statement.
