Claim Notes

Claim number:	C-1305
Claimant:	Jon Johnson
Adjuster:	Darin Tyler

March 1, 2024
Claim opened after a side impact at an intersection was reported by the claimant, who is not represented by an attorney. The claimant reports a shoulder injury and states that the other vehicle entered the intersection while the claimant had the right of way.

March 7, 2024
Police report on file confirms the claimant was in the vehicle at the time of the collision. The driver of the claimant's vehicle lives with the policyholder and is listed as a covered household member under the policy.

March 12, 2024
Photos from the scene confirm the general position of both veihcles and the point of contact on the driver's side. No independent witnesses have been identified, so the account rests on the parties and the police documentation.

March 18, 2024
Damage to the vehcile is mostly in line with the described impact. A few old scratches near the rear quarter panel may predate this crash and are being noted separately for the estimate.

June 4, 2024
Nothing in the file suggests the damage occurred before the coverage start date. Underwriting records were reviewed and show no prior claims on the vehicle.

July 24, 2024
The claimant later provided a few additional details about the seating position and the moment of impact, but the core account has remained the same across each staetment taken so far.

August 4, 2024
The reported shoulder injury matches the kind and force expected from a side impact of this type. Medical records show a usual course of treatment that tapered off as the claimant improved.

August 13, 2024
Medical history shows the claimant was treated for the same body area within the last two years. That prior condition appears to add to the current complaints, and the medical reviewer is weighing its contribution separately from the crash-related injury.

August 16, 2024
Overall the injury and vehicle damage fit the reported collision, with the prior shoulder condition and older scratches flagged for separate handling. The file is ready for the next settlement review step.

Q: Thanks for taking the time to speak with me today. This call is being recorded for claim purposes. Can you please state where you were when the collision happened?

A: Sure. I was driving through an intersection in Pasadena, Texas, heading east on the main road when it happened.

Q: Okay. Can you describe the traffic signal for your direction?

A: My light was green. I'm pretty sure of that because I had just come off a stop at the previous block and it turned green as I approached.

Q: And what happened next?

A: A pickup coming from the cross street to my right ran the red light and hit the driver's side of my car. The impact spun me a bit and pushed me toward the curb.

Q: Did you see the pickup before the impact?

A: Only for a second. I saw headlights come into the corner of my view and then heard the brakes, but there wasn't time to do anything.

Q: Were you wearing your seatbelt?

A: Yes, I was.

Q: Did you have any injuries at the scene?

A: I was sore in my neck and right shoulder right away, but I didn't think it was serious at first. The shoulder got worse over the next day or two. I've been having trouble lifting my arm above my head and sleeping on that side.

Q: Have you seen a doctor for the shoulder?

A: Yes, I went to urgent care the following day and I've since been referred for physical therapy. I'm still going through that.

Q: Thank you. Is there anything you'd like to add about the collision?

A: Just that I was driving carefully and I believe the other driver simply didn't stop. I'm hoping the report reflects that.

Q: Understood. Thank you for your time. We'll follow up with you soon.
