Vehicle	Seat	Name
Vehicle 1 (insured)	Driver	Chelsea Terry
Vehicle 1 (insured)	Passenger 1	Grant Flores
Vehicle 1 (insured)	Passenger 2	Jennifer Williams
Vehicle 2	Driver	Derrick Oliver

Officer's narrative

Driver 1 was traveling in the left lane on the highway in Pearland, Texas, when Driver 2 moved from the center lane into the same space without signaling. The front passenger side of Driver 2's vehicle struck the rear driver side of Driver 1's vehicle, pushing it toward the shoulder. Both drivers pulled over safely. I spoke with Driver 1, Driver 2, and Passenger, who was seated beside Driver 1 at the time. Driver 2 acknowledged changing lanes without checking the mirror. Two independent witnesses in nearby vehicles described the same sequence, and each staetd they saw the impact clearly. Scene photographs show scraping and deformation along the rear driver side panel of Driver 1's vehicle, consistent with the direction and force of the contact. Driver 1 reported neck pain and stiffness shrotly after the collision, which is a common response to a sideswipe impact of this kind. Officers observed no prior damage to either vehicle. Driver 1 is a member of the same housheold as the policyholder, and the policyholder's records list Driver 1 as a regular driver. Passenger was also present and reported no injuries at the scene.
