Description of the accident (claimant's words)

I was making a left turn at an intersection in Katy, Texas, when another vehicle came through and struck the side of my car. I had a green light and was already partway through the turn when the impact happened. My head hit the window and the airabg deployed, and I was dazed for seevral minutes afterward. At the scene and in every conversation since, including with the other driver's insurer and the responding officer, I have given the same account of what happened. I am the named driver on this policy and I have been the only person driving this vehicle. I was later diagnosed with a concussion and have been following my doctor's instructions for recovery, including limiting screen time and rest. I am requesting coverage for the vehicle damage, my medical costs, and time lost from work.
