Claim Notes

Claim number:	C-1310
Claimant:	Christine Solomon
Adjuster:	Valerie Rodriguez

2-9-23
Claim opened for a parking lot collision in which the insured's vehicle was struck while stopped. The claimant reports a concussion from the impact and is not represented by an attorney, so all contact is being handled directly with the claimant.

2-15-23
Reviewed the driver's listing on the policy and confirmed the driver is a named insured, with coverage active at the time of loss. Nothing in the file suggests the vehicle damage predates the coverage start.

5-3-23
Spoke with the claimant, who gave the same account of the collision as in the initial report. Police notes and two independent witnesses confirm the claimant was in the vehicle at the time, and the other driver's statement matches.

5-6-23
Photos from the scene and the repair estimate show damage consistent with the described impact, and the injury pattern reported by the claimant fits the force of the crash. No prior injury to the same body area appears in the records available so far.

5-12-23
Treatment has continued somewhat longer than is typical for a concussion of this kind. Requested updated medical records and will review them once received. No earlier damage to the vehicle is known from prior claims or inspection notes.

7-18-23
Reviewed the full file, including the account, scene photos, witness statements, and medical history. Everything is consistent, and the claim is moving forward for evaluation of the injury and vehicle damage.

Recorded Statement

Claim number:	C-1310
Statement of:	Christine Solomon
Taken by:	Valerie Rodriguez
Date:	1-29-23

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the parking lot collision you reported in Conroe. Can you confirm you're comfortable continuing?

A: Yes, I'm fine to continue.

Q: Please describe where you were when the collision happened.

A: I was pulling out of a parking space near the front entrance of the shopping center. I had just put my car in reverse and was checking my mirrors.

Q: What did you see before the impact?

A: I didn't see much at first. I think a vehicle was coming down the main drive toward the exit, but I was focused on backing out. I felt the impact on the rear passenger side before I really registered the other car.

Q: How fast were you moving when it happened?

A: Very slowly, maybe walking speed. I don't think I'd been moving more than a few seconds.

Q: Did you hit your head or lose consciousness?

A: My head hit the side window. I didn't pass out, but I was dizzy and had a headache right after.

Q: Have you soguht medical care since the collision?

A: Yes, I went to urgent care the same afternoon. They said I have a concussion and told me to limit screen time and rest for a while. I still get headaches and some light sensitivity.

Q: Did you give any statement to the other driver or the police at the scene?

A: I told the officer what I remembered, that I was backing out and felt the impact. I was pretty shaken, so I may not have gotten every detail right.

Q: Is there anything you'd like to add or correct?

A: Only that I want to make sure my medical bills and time off work are documented. I'm still recovering, so I'd appreciate follow-up on that.

Q: Thank you. We'll be in touch with next steps and any documents we need from you.

A: Thank you.
