Description of the accident (claimant's words)

I was turning left at an intersection in Pearland, Texas, when another vehicle struck my car. I had the green light and was moving slowly through the turn when the impact came. My knee hit the dashboard and I have been dealing with pain and swelling since then. I am the named driver on this policy and I have been cooperating fully with the adjuster. When I first described the collision, I said the other car hit the driver's side and that I was alone, but when I thought about it more I recalled the impact came from a different side and that a passenger was with me. I am giving my best recollection now and I will provide any further details that help clarify what happened.
