Claim Notes

Claim number:	C-1312
Claimant:	Ricardo Allen
Adjuster:	Christopher Wong

May 23, 2023
Reported a sideswipe wihle changing lanes on a multi-lane road. The claimant is driving, and the vehicle's rear quarter panel and passenger door show contact damage. The claimant reports a knee injury from striking the dashboard and has no attorney.

May 30, 2023
Police report confirms the claimant was in the vehicle at the scene and that the other driver admitted to drifting into the lane. Two independent witnesses gave statements that match the claimant's account of the collision.

August 15, 2023
Photos from the scene and the other driver's statement both support the described impact. Damage to the vehicle is largely consistent with the reported force of the sideswipe. No prior damage to the vehicle is known from our records or the claimant's file.

August 16, 2023
Claimant was seen at an urgent care clinic the same day with knee pain and swelling, and imaging was ordered. The clinic's intake notes describe the same sequence of events the claimant gave at the scene.

September 23, 2023
Spoke with the claimant by phone to confirm the account, and the claimant described the collision the same way as in the initial report. The claimant also mentioned a past minor strain in the same knee that resolved fully with rest.

November 11, 2023
A neighbor who was contacted during routine inquiries believes the vehicle had visible damage some weeks before the reported collision. The neighbor's recollection is not specific about the timing or the location of the damage, so it needs follow-up.

November 26, 2023
Confirmed the driver lives in the policyholder's household and qualifies as a covered household member under the policy. Coverage question is resolved on that basis, and the household relationship has been documented in the file.

November 29, 2023
Traetment has increased sharply, with near-daily vsiits to the clinic and physical therapy. Pain has also been reported in the hip and lower back, which were not mentioned in the first weeks after the collision.

December 6, 2023
Requested the medical records from the treating providers and reviewed the billing summary. Treatment volume is many times what is typical for this type of knee injury, and the timing of the new complaints is being noted for the file.

December 19, 2023
Account remains consistent across all contacts, and the injury and vehicle damage both fit the reported impact. The neighbor's comment about earlier damage and the scope of the treatment remain open items, and the file is being referred for further review before any decision on the injury claim.

Q: Thank you for agreeing to give this recorded statement. Please state the location where the collision happened.

A: It was on the freeway in Houston, Texas, in the middle lane near the interchange.

Q: What were you doing right before the impact?

A: I was changing lanes to the right because my exit was coming up. I checked my mirror and my blind spot, and I signaled.

Q: Did you see the other vehicle before you moved over?

A: Not clearly. I glanced at my mirror and didn't see anything beside me, but then I felt the contact along my passenger side.

Q: Describe the contact.

A: It was a sideswipe. Their vheicle drifted into my lane as I was moving over, and our mirrors and doors scraped. My car pulled slightly toward the shoulder, and I corrected it.

Q: Did you stop after the collision?

A: Yes, I pulled onto the shoulder right away and turned on my hazard lights.

Q: Were you injured?

A: Yes, I hurt my right knee. It struck the dashboard when I braced myself, and it's been swollen and painful since.

Q: Have you received medical treatment for the knee?

A: I went to an urgent care clinic that same afternoon. They took X-rays and told me to follow up with a specialist.

Q: Is there anything else you'd like to add to your statement?

A: Only that I was driving carefully and I'm willing to provide any records you need.

Q: Thank you. This conculdes the statement.

A: Thank you.
