Description of the accident (claimant's words)

I was changing lanes on a busy road in Houston, Texas, when a vehicle in the lane I was moving into sideswiped the rear quarter of my car. I checked my mirrors and signaled before I moved, so I am confident the other driver was the one who drifted over. My right knee struck the door pillar on impact and has been sore and swollen since, and I have been limping when I walk for longer distances. I have described the events the same way to the officer at the scene, to the adjuster, and to my doctor, and I have nothing to add or change. I am a member of the policyholder's household, living under the same roof, and I am driving the insured vehicle with permission. I am submitting this statement so that my medical costs and the damage to the car can be considered under the policy.
