Bodily Injury Unit

Claim Notes

Claim number:	C-1313
Claimant:	Lorraine Allen
Adjuster:	Darin Tyler

22 May 2025
The claim was opened after a report that the insured's vehicle was struck while turning left at an intersection. The claimant is represented by counsel, and all further contact is being routed through the attorney's office.

16 Jun 2025
Photos taken at the scene show damage that lines up with the described impact. The driver is named on the policy and the coverage was in force at the time of loss.

26 Jun 2025
The police report and two statements confirm the claimant was in the vehicle, though no independent witnesses have come forward. No earlier damage to the vehicle has been found in our records or in the inspection.

6 Aug 2025
The claimant reports neck and back strain, which is a plausible injury for a collision of this type. No prior injury to the same body area is known from available history.

26 Aug 2025
Treatment has grown steadily over recent months, with more visits and new services added each month, well beyond what this injury usually requires. The claimant has given the same account of the accident in every conversation so far.

14 Oct 2025
Nothing in the file suggests the damage occurred before the coverage started. Review of the treatment billing against typical care for this injury is ongoing, and the file will be referred for a further medical review.

Recorded Statement

Claim number:	C-1313
Statement of:	Lorraine Allen
Taken by:	Darin Tyler
Date:	17 Mar 2025

Q: This is the recorded statement for claim reference regarding the collision you reported. Please state your full name for the record.

A: I'd rather just give my details without my name going on this, if that's alright.

Q: Understood. We can use the claim number instead. Can you describe where the collision happened?

A: It was an intersection in Houston, Texas. I was making a left turn across the opposing lane when another vehicle struck the rear quarter of my car.

Q: Were you turning at a traffic signal or a stop sign?

A: Three was a signal. My light was green for the turn, I think, though it had been yellow for a moment befroe I went.

Q: How fast were you traveling when you started the turn?

A: Not fast. I was almost stopped waiting for a gap. The other car came through quickly.

Q: Did you see the other vehicle before the impact?

A: Only for a second. I glanced up and it was already close, so I couldn't react in time.

Q: Did you feel any injury at the scene?

A: Not rgiht away. I was sore in my neck and loewr back by that evening, and it's gotten worse over the days since.

Q: Have you seen a medical provider for those symptoms?

A: Yes, I went in for an evaluation. They diagnosed a neck and back strain and I've been doing physical therapy twice a week.

Q: Is there anything else you'd like to add to your statement?

A: Just that I'm still having stiffness when I drive, and I'd like the repair and medical costs looked at as soon as possible.

Q: Thank you. This concludes the recorded statement.
