Harbor Point Mutual Auto Insurance

Bodily Injury Unit

Claim Notes

Claim number:	C-1314
Claimant:	Valerie Serrano
Adjuster:	Alison Sweeney

July 12, 2025
Claim opened after the insured vehicle was reported in a collision at an intersection while turning left. The claimant has retained counsel, so all further contact is to go through the attorney's office.

July 24, 2025
Police attended and confirmed a passenger was in the vehicle at the time. Independent witnesses and scene photographs match the described sequence of events, and the other drievr has given the same account.

August 4, 2025
The claimant reports shoulder pain and has been seen by a physician. The injury is consistent with a collision of this type, and no earlier injury to that shoulder is known.

August 11, 2025
The vehicle inspection shows damage on a different side of the car and at a different height from the impact the claimant described, so the damage does not line up with the account given. Photos are on file for review.

September 10, 2025
The claimant's account has stayed the same in every conversation so far, including the recorded statement and the call with counsel present.

November 12, 2025
Treatmnet followed a standard course and sessions tapered off as the claimant improved. No earlier damage to the vehicle is on record, and nothing suggests the damage predates the start of coverage.

December 21, 2025
The records check shows the driver at the time of loss is named on the policy as not permitted to operate the vehicle. Referred to underwriting to review the named-driver position.

January 16, 2026
File reviewed. Liability remains open pending the resoultion of the inspection discrepancy and the named-driver question. Next stpes are to request the treating records and the attorney's demand package.

Recorded Statement

Claim number:	C-1314
Statement of:	Valerie Serrano
Taken by:	Alison Sweeney
Date:	June 6, 2025

Q: Thank you for taking the time to speak with me today. This recording is for claim review purposes. Can you please state your full name for the record?

A: I'd rather not give my full name on a recording, but I can confirm I'm the driver of the vehicle involved in the collision.

Q: That's fine, we'll note the claimant identity is on file. Can you describe where the accident happened?

A: It was at an intersection in Houston, Texas. I was making a left turn across the opposing lanes when the other vehicle hit the rear portion of my car.

Q: Were you turning at a green light or a arrow?

A: I had a green light, but there was no protected left arrow. I waited for a gap in oncoming traffic before I started moving.

Q: Did you see the other vehicle before the impact?

A: Not clearly. It was approaching from behind and to the side, and I was focused on the oncoming cars. I felt the impact before I could react.

Q: Did you have any injuries at the scene?

A: I felt pain in my right shoulder almost immediately. I was able to get out of the car on my own, but the shoulder was sore and I had trouble lifting my arm.

Q: Have you sought medical treatment since the collision?

A: Yes, I went to an urgent care clinic that same day and was referred for imaging. I have a follow-up appointment with an orthopedic provider next week.

Q: Is there anything you would like to add to your account?

A: Only that I believe I was turning lawfully and I want to make sure my medical bills are covered. Thank you for your help.

Q: Thank you. This concludes the recorded statement.
