Description of the accident (claimant's words)

I was stopped at a red light on a busy Houston street when the car behind me hit my rear bumper hard enough to push my vehicle forward into the intersection. The impact was sudden and I felt a sharp pain in my right knee as it struck the dashboard. I stayed at the scene until the other driver and I exchanged details and a report was taken. Looking back on what happened over the following days, I have recalled a few more small details, such as the exact sound of the impact and where the other car came to rest, but the core sequence has not changed from what I first described. I am the named driver on this policy and I have provided my information accurately throughout this claim.
