Claim Notes

Claim number:	C-1320
Claimant:	Victor Gibson
Adjuster:	Christopher Wong

August 24, 2024
First notice of loss received from the policyholder's driver describing a side impact at a signalized intersection. The claimant reports a concussion and is now represented by counsel, so all further contact will go through the attorney's office.

October 16, 2024
Reviewed the police report, which places the claimant inside the vehicle at the time of impact. Requested the scene photographs and the statements of the two independent witnesses.

November 20, 2024
Spoke with the other driver, who gave the same sequence of events as the policyholder. Both vehicles had the right-of-way questions addressed by the signal phase noted in the report.

November 28, 2024
Photos from the vehicle inspection show damage to the driver's side door and quarter panel consistent with the reported angle of impact. The estimate will be reviewed against the photographs.

December 16, 2024
Confirmed the driver is named on the policy and that coverage was in force on the loss date. No issues with the policy terms were found.

December 25, 2024
Reviewed the vehicle's prior repair history and found no earlier damage to the same panels. Nothing in the file suggests the damage predates the coverage period.

January 3, 2025
Counsel's letter arrived requesting medical authorizations. Forwarded the request to the claims file and noted the claimant's account has been consistent across every contact so far.

January 4, 2025
Received the initial medical records showing a concussion diagnosis. Records do not indicate any prior injury to the head or neck area.

January 8, 2025
Treatment has continued somewhat longer than is typical for this type of injury. Requested updaetd records and a treating physician summary to understand the course of care.

January 11, 2025
Reviewed the medical file with the claims supervisor. Whether the concussion was caused by this collision has not yet been determined, and the file remains open pending further medical review.

January 26, 2025
Sopke with counsel's office to confirm receipt of the requested records and to advise that the medical causation review is ongoing.

February 1, 2025
Scheduled a follow-up with the claims supervisor to review the outstanding medical records and set the next action date for the bodily injury evaluation.

Recorded Statement

Claim number:	C-1320
Statement of:	Victor Gibson
Taken by:	Christopher Wong
Date:	June 16, 2024

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision you reported at an intersection in Sugar Land, Texas. Please state your full name and confirm that you're comfortable continuing.

A: Sure. I'm comfortable. My head's still a little foggy, so if I pause or repeat myself, bear with me.

Q: That's completely fine. Can you walk me through what you remember about the collision?

A: I was driving through the intersection on a green light, heading straight. A pickup coming from my right didn't stop at the signal and hit the driver's side of my car. The impact spun me a bit and I hit my head on the window frame.

Q: Did you see the pickup before the impact?

A: Not really. I glanced to my right just as it came into view, and there wasn't time to do anything.

Q: Did you lose consciousness, even briefly?

A: I don't think so, but I was dazed for a few minutes. People were talking to me and I had trouble answering right away.

Q: Have you seen a medical provider since the collision?

A: Yes, I went to an urgent care clinic the same day. They diagnosed a concussion and told me to limit screen time and rest. I still get headaches and I'm sensitive to bright light.

Q: Are you currently following the treatment plan you were given?

A: Mostly. I've had a hard time staying focused at work, so I've been taking shorter days and I'm seeing a specialist next week.

Q: Is there antyhing you'd like to add to your account of the collision?

A: Just that I was driving carefully and the other driver admitted at the scene that they ran the light. That's about it.

Q: Thank you. This concludes the statement.
