Description of the accident (claimant's words)

I was making a left turn at an intersection in Houston, Texas, when another vehicle struck the side of my car. I had the green light and was moving slowly through the turn when the impact came. My neck and back were jolted hard, and by the next morning I was dealing with stiffness and aching that has made turning my head and sitting for long periods difficult. I have described the collision the same way to the officer at the scene, to the other driver's insurer, and to the adjuster who called me afterward. I am the named driver on this policy and I am submitting this claim in that capacity. I am providing the police report number and photographs of the vehicle damage with this form, and I will supply medical records as they become available.
