Bodily Injury Unit

Claim Notes

Claim number:	C-1325
Claimant:	Lindsey Martinez
Adjuster:	Valerie Rodriguez

09/09/2024
Claim opened after a low-speed head-on collision reported by the insured driver, who is named on the policy. The claimant is not represented and reports neck and back strain.

10/07/2024
Reviewed the police report and confirmed with the responding officer that the claimant was in the vehicle at the time of impact. The other driver's statement matches the claimant's account of how the collision happened.

10/21/2024
Two independent witnesses gave statements that agree with the sequence of events described by both drivers. Scene photos were received and reviewed.

11/11/2024
Inspected the vehicle damage. The front-end damage is consistent with the impact described and with the speed reported. A few old scratches elsewhere on the body may predate this crash and have been noted separately.

11/23/2024
Nothing in the records suggetss the damage occurred before the policy coverage began. Coverage confirmed as in force on the date of loss.

01/02/2025
Claimant contacted me and provided a few additional details about the collision, including where the vehicle was positioned after impact. The core account has not changed from the original report.

02/06/2025
Reviewed the medical records. The reported neck and back strain is a plausible injury for a collision of this type. No prior injury to the same body area is known from the claimant's history or the records obtained.

03/07/2025
Treatment followed a usual course of physical therapy and follow-up visits. Symptoms have ipmroved steadily and the frequency of treatment has tapered off as recovery progressed.

03/30/2025
Asked the claimant whether any earlier neck or back complaints existed. The claimant denied prior issues, and no contrary recrods have been found to date.

03/31/2025
Current assessment: the accident, vehicle damage, and reported injury are consistent with each other. Treatment is tpaering as expected. File remains open pending final medical updates.

Recorded Statement

Claim number:	C-1325
Statement of:	Lindsey Martinez
Taken by:	Valerie Rodriguez
Date:	09/09/2024

Q: This is the adjuster speaking. The recording has started. Please state your full name for the file.

A: I'd rather just keep it to my first name for now, if that's okay.

Q: That's fine. Can you describe where you were and what you were doing when the collision happened?

A: I was driivng on a two-lane road in Conroe, heading home from the store. It was a weekday afternoon and traffic was light.

Q: What happened as you approached the point of impact?

A: The other car crossed into my lane while it was trying to pass a slow truck. I braked and steered to the right, but we still met nose to nose. It wasn't a hard hit, though. Both cars were going slowly.

Q: Did either airbag deploy?

A: No, they didn't. I got out of the car on my own and walked around for a bit before I sat down on the curb.

Q: Did you feel any pain at the scene?

A: Not right away. About an hour later my neck got stiff and a dull ache started across my lower back. By that evening, turning my head to check traffic was painful.

Q: Have you seen a doctor or other provider since the collision?

A: Yes, I went to urgent care the next morning. They diagnosed a neck and back strain, gave me muscle relaxers, and told me to follow up with physical therapy.

Q: Have you had any prior injuries to your neck or back?

A: I had some stiffness years ago after a fall at work, but nothing that kept me from working or needed treatment in the last several years.

Q: Is there anything else you'd like to add?

A: Only that I'm still having trouble sleeping and I've missed some shifts. I'm willing to provide my medical records.

Q: Thank you. This concludes the reocrded statement.

A: Thank you.
