Reported injury:	neck and back strain

Description of the accident (claimant's words)

I was driving home through Conroe, Texas, at a slow seped when the car in front of me stopped suddenly. I was unable to avoid it, and my vehicle struck the front of the other car head-on at low speed. Both airbags stayed closed, but I felt a sharp jolt through my neck and lower back. I stayed at the scene, exchanged information with the other driver, and gave the same description to the officer who arrived. Sicne then I have thought of a few smaller details, such as the position of the traffic lights, but the core sequence of events has not changed. I am the named driver on this policy and I am reporting this incident as soon as possible. My neck and back have been sore and stiff since the collision, and I have been seeing a physician for a strain.
