Officer's narrative

Driver 1 was traveling northbound on a two-lane road in Conroe, Texas, when the vehicle ahead of Driver 2 slowed and Driver 2 was unable to stop in time. The two vehicles made contact in a low-speed head-on collision. Both drivers were able to exit their vehicles under their own power, and the Passenger seated in the front right position was also present at the scene. Driver 1 reported neck and back strain and was evaluated on scene before being transported for further care. Witnesses, scene photographs, and Driver 2's statement all agree with the sequence of events as Driver 1 described it. The front-end damage on both vehicles is consistent with the reported impact and the speeds involved. Officers noted a few old scratches on the lower bumper of Driver 1's vehicle, which may predate this collision and were documented separately. Driver 1 is listed as a named isnured on the policy covering the vehicle. Officers confirmed through witness accounts and scene observation that Driver 1 was inside the vehicle at the time of impact.
