Claim Notes

Claim number:	C-1327
Claimant:	Brittney Romero
Adjuster:	Christopher Wong

2024-06-29
Reported a rear-end collision at a signalled intersection and the claimant said the other vehicle struck the rear bumper while stopped. The claimant reported a knee injury and no lawyer is involved.

2024-07-22
Obtained photos of both vehicles and the police report, which lists the claimant as a passenger in the vehicle at the time. The rear damage on the claimant's car lines up with the impact described.

2024-07-29
Spoke with the other driver, who independently confirmed the stop and the rear impact. Two witnesses at the scene also gave statements that match the sequence of events.

2024-09-07
Confirmed that the driver is named on the policy and that the policy was active at the time of loss. Nothing in the vehicle history or the file suggests the damage predates the coverage start.

2024-10-21
Reviewed the claimant's medical records, which describe a knee injury consistent with this type of collision. Treatment has continued somwehat longer than is typical for this injury, so I've requested the treating provider's notes on the recovery plan.

2025-01-29
The claimant has no record of prior injury to the same knee and reported none during the interview. Prior vehicle damage was also checked and none is on file for this car.

2025-02-03
Each conversation with the claimant has prodcued the same account of the collision, including the stop, the impact, and the sequence afterward. No discrepancies have come up, and the file is ready for the coverage and damages review.

Recorded Statement

Claim number:	C-1327
Statement of:	Brittney Romero
Taken by:	Christopher Wong
Date:	2024-06-18

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the rear-end collision in Pasadena, Texas. Please state your full name for the record.

A: I'd prefer to just go by my first name for now, if that's all right.

Q: That's fine. Can you describe where you were sitting when the collision happened?

A: I was in the front passenger seat of a sedan. My friend was driving us home from an errand.

Q: Were you wearing a seatbelt?

A: Yes, I had it on the whole time.

Q: Tell me what happened right before impact.

A: We were stopped at a red light on a main road. I looked in the side mirror and saw a pickup coming up fast. I remember thinking it wasn't going to stop in time. Then it hit us from behind.

Q: Did your body move in any particular way?

A: Yes, my knee slammed into the dashboard. My head went forward and then snapped back against the seat.

Q: Did you get out of the vehicle or receive any treatment at the scene?

A: Paramedics came. I told them my knee was hurting badly, and they checked me over. I didn't go by ambulance, though. My friend drove me to a clinic later.

Q: Have you seen a doctor since then?

A: Yes, I've been to the clinic twice now. They took X-rays and said there's swelling and some ligament strain. I've been icing it and using a brace.

Q: Has the knee affected your daily activities?

A: Definitely. Stairs are hard, and I can't work my shift at the warehouse right now. It makes it difficult to sleep too.

Q: Is there anything else you'd like to add?

A: Only that I want to make sure my medical bills get covered. I'm willing to send you my records.

Q: Thank you. We'll follow up with a request for those records. This concludes the statement.
