Claim Notes

Claim number:	C-1329
Claimant:	Denise Jacobs
Adjuster:	Jerry Hanson

6-2-24
The driver, who is named on the policy, reported a low-speed head-on collision in a parking area and a neck and back injury to the claimant. Coverage was active at the time, and nothing suggests the vehicle damage predates the policy start.

6-5-24
The attending officer recorded the claimant as present in the vehicle at the scene, but the file holds no separate report of the collision itself. No witnesses or photos have been identified so far.

6-8-24
The vehicle inspection shows dents to the front bumper cover and hood, positioned lower and toward the passenger side than the impact the driver described. The location and height do not line up with the account given.

6-11-24
The claimant describes the impact as a light bump but reports severe neck and back pain. The severity of the claimed injury is hard to square with a contact that seems this minor.

6-27-24
Prior medical history was checked, and there is no record of earlier injury to the neck or back. Nothing in the records points to a preexisting condition in that area.

7-30-24
On the follow-up call, the claimant repeated the same account of the collision, in the same order and with the same details as the first statement. No new facts came up.

7-31-24
Treatment began with an initial clinic visit, then moved to physiotherapy and medication. Visits gradually tapered as the claimant reported improvement, which is a usual course for a strain of this kind.

9-26-24
Records of prior claims and the vehicle's service history were reviewed, and no earlier damage to the vehicle is known.

11-6-24
Policy inception and endorsement dates were confirmed. Nothing suggests the damage occurred before coverage started.

11-21-24
The claimant has not been reprseented by counsel and has been asked for phtoos of the scene and any witness contact details. None have been provided at this stage.

12-29-24
The file was reviewed against the inspection findings and the treatment timeline. The gap between the reported impact and the damage pattern remains open for discussion with the handling team.

12-31-24
Calim remains open pending further review of the damage evaluation and the treatment records. The next step is to confirm the impact location with the repair shop before any decision is made.

Recorded Statement

Claim number:	C-1329
Statement of:	Denise Jacobs
Taken by:	Jerry Hanson
Date:	6-2-24

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision you were involved in in Conroe, Texas. Please state your full name for the record.

A: I'd rather just keep it to the accident, if that's alright.

Q: That's fine. For the record, can you confirm you were the driver of the vehicle you were operating at the time?

A: Yes, I was driving.

Q: Can you walk me through what happened?

A: I was heading down the main road, moving slow because of traffic. The other car came over into my lane. We hit head on, but it wasn't a hard hit. Both cars were going slow.

Q: Were you wearing your seatbelt?

A: Yes, I always do.

Q: Did the airbags deploy in your vehicle?

A: No, they didn't go off. My car just stopped pretty fast and I jerked forward and back.

Q: Did you get checked out by anyone after the collision?

A: Yes, I went to urgent care the same day. My neck and lower back were sore right away, and the doctor said it looked like a strain.

Q: Are you still experiencing symptoms?

A: Yes. My neck is stiff when I turn my head, and my lower back hurts when I sit too long. I've been doing some stretching and taking it easy at work.

Q: Have you had any prior neck or back problems?

A: No, nothing serious. I had a little stiffness now and then, but nothing that stopped me from working.

Q: Is there anything else you think I should know aobut the collision?

A: I don't think so. I just want to get my car fixed and get back to normal.

Q: Thank you. This concludes the statement.
