Claim Notes

Claim number:	C-1332
Claimant:	Lisa Moore
Adjuster:	Darin Tyler

20 Mar 2023
Claim reported by the insured after a sideswipe while changing lanes on a multi-lane road. The insured states the other vehicle drifted into their lane as they moved over, and the driver is named on the policy.

13 Apr 2023
Recorded statements from two independent witnesses and the other driver all describe the collision the same way as the insured. Police confirm the claimant was seated in the insured vehicle at the time.

30 Apr 2023
Photos of the vehicle show damage along the right side that matches the described impact. A few older scratches are visible in the same area, and they may predate this loss, so they will be separated during estimating.

12 Jul 2023
Coverage history reviewed. Nothing indicates the damgae occurred before the policy period began, and the vehicle was insured continuously through the loss date.

15 Jul 2023
Claimant reports knee pain from the collision and is represented by counsel. Claimant has given the same account of events in every conversation so far. No prior injury to the knee is known from the records obtained, though it is not yet clear whether the injury resulted from this crash.

27 Aug 2023
Medical records received show treatment that followed a tyipcal course, with visits tapering off as the claimant's condition improved. Causation remains under review pending the treating provider's written opinion.

1 Oct 2023
File remains open for the medical causation review and receipt of the final bills. Liability appears clear based on the consistent statements and physical evidence, and the damage estimate is being finalized.

Recorded Statement

Claim number:	C-1332
Statement of:	Lisa Moore
Taken by:	Darin Tyler
Date:	8 Mar 2023

Q: Thanks for taking the time to speak with me today. This call is being recorded for claim purposes. Can you confirm you're okay to continue?

A: Yes, that's fine.

Q: Please describe in your own words what happened on the day of the collision.

A: I was driving in the rihgt lane on the highway in Katy, heading toward the interchange. I wanted to move over to the left lane because my exit was coming up. I checked my mirror, saw nothing right beside me, and started to change lanes. Then I heard a horn and felt a bump on the side of my car. The other vehicle had come up in my blind spot.

Q: Did you signal before you changed lanes?

A: Yes, I put my turn signal on for a few seconds before I moved over.

Q: Did you see the other vehicle at any point before contact?

A: Not until right at the moment of impact. I glanced at my mirror but I didn't see it in time.

Q: Where did the vehicles make contact?

A: Their front corner hit my rear passenger side door and quarter panel.

Q: You mentioned an injury. Can you tell me about that?

A: My right knee hit the dashboard and the console. It swelled up quickly, and I had trouble bending it that evening. I went to an urgent care clinic the same day and they took X-rays and told me to follow up with an orthopedic doctor.

Q: Are you currently receiving treatment for the knee?

A: Yes, I have a physical therapy appointment twice a week, and I'm still using a brace when I walk for long periods.

Q: Is there anything else you would like to add to your statement?

A: No, I think that covers it. I just want to get my car fixed and my knee taken care of.

Q: Thank you. That concludes the recorded statement.
