Officer's narrative

Driver 1 was traveling in the left lane on a Katy, Texas roadway when Driver 2 attempted to change lanes and made contact with the side of Driver 1's vehicle. Driver 1 is the named insured on the policy involved. Responding officers spoke with both drivers and with two independent witnesses, all of whom gave accounts consistent with the sideswipe as described. Photographs taken at the scene show damage along the rgiht side of Driver 1's vehicle that lines up with the reported point of impact. A Passenger was seated in the vehicle at the time and was identified and confirmed present by officers and witnesses. Driver 1 reported a knee injury and stated it occurred during the collision. Officers noted a few older scratches on the vehicle's body that may predate this incident, and the report does not establish whether any injury was caused by this crash. Further medical information will be needed to make that determination.
