Claim Notes

Claim number:	C-1334
Claimant:	Ann Wilson
Adjuster:	Christopher Wong

October 5, 2024
First notice of loss received from the claimant regarding a sideswipe that occurred while changing lanes on a multi-lane road. The claimant reports a back strain and says the other vehicle drifted into their lane as they were merging.

October 14, 2024
Confirmed the claimant is the named driver on the policy and that coverage was in force at the time of the loss. No issues with policy status were found.

November 19, 2024
Obtained the police report, which places the claimant's vehicle in the lane change scenario and records the claimant as present in the driver's seat. Statements from two independent witnesses match the sequence described by the claimant.

January 7, 2025
Reviewed photographs of both vehicles. The damage to the claimant's rear quarter panel and the other vehicle's front fenedr lines up with the impact described, and nohting in the photos points to older damage.

January 12, 2025
Spoke with the other driver, who gave an account that agrees with the claimant's version of how the sideswipe happened. No prior damage to the claimant's vehicle appears in our records or in the inspection notes.

February 25, 2025
Claimant was contacted again to confirm details. The account given was the same as the first notice, including the sequence of the lane change and the points of contact between the vehicles.

February 28, 2025
Medical records show the back strain is a typical injury for a side impact of this kind. No earlier treatment to the same area is on file. Treatment has continued somewhat longer than is usual for this type of injury, so the file is being monitored.

April 25, 2025
Reviewed the treatment plan and the claimant's physical therapy notes. Progress is steady, though recovery is slower than the average timeline. No new infromation has changed the assessment of the loss.

April 27, 2025
File reviewed and all key elements of the claim are consistent with the reported loss. Injury and property damage are being handled under the policy, with the ongoing treatment period noted for the next review.

Recorded Statement

Claim number:	C-1334
Statement of:	Ann Wilson
Taken by:	Christopher Wong
Date:	September 3, 2024

Q: Thanks for taking the time to speak with me today. This recorded staetment concerns the sideswipe incident you reported in Houston, Texas. Please state your full name for the record.

A: Sure. I'd rather not put my full name on it, so just treat me as the driver of the gray sedan.

Q: That's acceptable for the file. Can you walk me through what happened before the contact?

A: I was in the middle lane on a fairly busy road, planning to move over to exit. I checked my mirror, saw the lane looked clear, and signaled. As I started to merge, a pickup that had been behind me in the left lane pulled up alongisde and its side panel scraped against my passenger door.

Q: Did you see the pickup before you began your lane change?

A: Not clearly. It was in my blind spot, and I didn't catch it when I glanced over. I should have turned my head fully, and I'll own that.

Q: Understood. Did the driver of the pickup stop?

A: They slowed down, then kept going for a bit before pulling onto the shoulder. We exchanged information and took a few photos at the scene.

Q: How are you feeling physically since the incident?

A: My lower back is pretty sore. It tightened up that evening, and I've been having trouble sitting for long periods. I went to urgent care the next day and they told me it looked like a muscle strain. I've been doing stretches and taking over-the-counter pain relievers.

Q: Have you seen a physician since then, or started any treatment?

A: I have a follow-up scheduled with my primary care doctor, and I've been referred to physical therapy. I'm hoping to start that soon.

Q: Thank you. Is there anything you'd like to add to your account?

A: Only that I'm sorry the other driver's truck got damaged too. I just want this sorted out fairly.

Q: Thank you. This concludes the statement.
