Claim Notes

Claim number:	C-1335
Claimant:	Christina Ellis
Adjuster:	Christopher Wong

06/11/2024
Claim reported by the insured's policyholder following a sideswipe that occurred while changing lanes on a multi-lane road. The claimant reports a wrist fracture and is represented by counsel, who has requested all future contact be routed through their office.

07/03/2024
Reviewed the policy and confirmed the driver involved is named on the policy and the coverage was in force at the time of loss. No concerns were identified regarding the policy status.

09/08/2024
Obtained statements from two independent witnesses and the other driver, all of whom confirm the collision happened as the claimant described. Scene photographs were also received and are consistent with the account given.

09/18/2024
Inspected the insured vehicle. The damage to the driver side panels matches the described impact pattern. A few older scratches are visible in the same area and may predate this loss; these have been noted separately for the file.

10/05/2024
Spoke with the claimant's counsel, who provided the medical records for the wrist fracture. The injury is plausible for a collision of this type, and the claimant has given the same account of events in every conversation so far.

10/07/2024
Medical file shows treatment followed a usual course, with care tapering off as the claimant improved. No prior injury to the same body area is known from the records received to date.

11/09/2024
Reviewed the claimant's seating position with the available information. It is not fully clear where in the vehicle the claimant was sitting at the moment of impact, and this will be clarified in a follow-up interview.

11/15/2024
Nothing in the file suggests the vehicle damage occurerd before the coverage start date. Requested the prior repair history to close out the question of the older scratches.

01/12/2025
File reviewed and remains open pending the follow-up interview on seating position and receipt of the prior repair history. Injury and liability information to date are consistent with the reported facts.

Recorded Statement

Claim number:	C-1335
Statement of:	Christina Ellis
Taken by:	Christopher Wong
Date:	05/29/2024

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision you reported in Houston, Texas. Can you confirm you're comfortable continuing?

A: Yes, that's fine.

Q: Please describe where you were and what you were doing when the collision occurred.

A: I was driving on the freeway, in the right-hand lane, and I wanted to move over to the middle lane because I needed to take the next exit.

Q: Did you check your surroundings before changing lanes?

A: I checked my mirror and glanced over my shoulder. I didn't see anyone right beside me, so I started to move over.

Q: What happened next?

A: About halfway into the lane change, I heard a loud scrape and felt my car get pushed toward the left. The other vehicle was alongside me in the middle lane, and our mirrors clipped. I think I was still going about the same speed as traffic.

Q: Did the other driver stop?

A: They pulled over onto the shoulder a little ahead. I pulled onto the shoulder behind them.

Q: Were you injured?

A: Yes. My left wrist hit the steering wheel and the door frame when the car jerked. It swelled up almost right away, and I was taken to the hospital. They told me it's fractured.

Q: Are you receiving treatment now?

A: I have a splint and I'm scheduled to see a hand specialist next week. I'm still having trouble gripping things.

Q: Is there anything else you want to add to your statement?

A: Only that I was trying to signal and move carefully. I didn't mean for this to happen, and I want to get my car repaired.

Q: Thank you. That concludes the statement.

A: Thank you.
