Description of the accident (claimant's words)

I was changing lanes on a multi-lane road in Houston, Texas, when the car in the lane beside me drifted over and sideswiped the rear quarter panel of my vehicle. I had checked my mirror and signaled before moving over, and I felt the impact pull my steering wheel to the side. I pulled onto the shoulder and stayed at the scene until the other driver and I exchanged details. My wrist struck the steering wheel during the impact, and I was later diagnosed with a fracture that required immobilization and follow-up appointments. I have described the events the same way every time I have discussed them, and I am the named driver on the policy. I am submitting this account so the claim can be processed.
