Driver 1 was traveling in the left lane of a multi-lane roadway in Houston, Texas, when Driver 1 began to move right to change lanes. Driver 2, operating a vehicle in the right lane, was alongside and the two vehicles made contact along their sides, consistent with a sideswipe collision. Both drivers pulled to the shoulder after the impact. Drievr 1 reported a wrist injury and was assisted by responding personnel. Independent witnesses at the scene stated that the collision occurred in the manner Driver 1 and Drvier 2 described, and photographs taken on scene were consistent with their accounts. Damage to the driver side of Driver 1's vehicle and the passenger side of Driver 2's vehicle matches the reported point of impact. The Passenger, seated in Driver 1's vehicle, was not clearly identified as to seating posiiton during the initial interview and was noted for follow-up. Some minor scratches on the lower rear quarter panel of Dirver 1's vehicle may predate this incident and were noted for reference only. Driver 1 is listed as a named driver on the applicable policy.
