Spoke with the claimant, who described the collision the same way as in the first report, including the other vehicle entering from the right. The claimant also confirmed being a passenger in the veihcle at the time.

7 Oct 2023
The police report and two independent witnesses support the account of how the collision happened. Scene photos and the other driver's statement match it as well.

The vehicle damage matches the described impact. The driver is named on the policy, and nothing indicates the damage predates the start of coverage.

7 Nov 2023
Prior records show major damage to the same areas from an earlier accident that was never reported to us, and the claimant is now presenting that damage as new. The claimant has not yet explained the difference.

Medical records document a shoulder injury, but it is not yet clear whether this collision caused it. No earlier injury to the same shoulder is known.

25 Nov 2023
Treatment has grown to many times the usual amount for this injury, with near-daily visits and new body areas added several weeks after the collision. An independent medical review has been requested.

Next steps are to obtain the complete prior claim history and the treating physician's notes, complete the independent review, and hold any settlement decision until the results are in.

Recorded Statement

Claim number:	C-1336
Statement of:	David Ford
Taken by:	Christopher Wong
Date:	1 Aug 2023

Q: Thank you for taking the time to give this recorded statement. Please state your full name for the record.

A: I'd rather not give my name on the recording, if that's okay. You have my claim number.

Q: That's fine. Can you tell me where you were when the collision happened?

A: I was driving through an intersection in Katy, Texas. I had a green light, heading straight through.

Q: What happened as you entered the intersection?

A: A vehicle coming from my right ran the red light and hit the driver's side of my car. I didn't see it until it was almost on me. I tried to brake but three wasn't time.

Q: Were you wearing your seatbelt?

A: Yes, I was. The airbag on my side did deploy, and I was thrown against the door.

Q: Did you get checked out after the accident?

A: The paramedics looked at me at the scene, and then I went to the emergency room that evening. They said my right shoulder was strained and I had some bruising along my ribs.

Q: Are you still having symptoms?

A: Yes. I can't lift my arm above my shoulder without pain, and I'm doing physical therapy twice a week. I've had to take time off work because I can't drive long distances or lift anything heavy.

Q: Did you have any prior problems with that shoulder?

A: No, not that I can recall. It was fine before this.

Q: Is there anything else you think I should know?

A: Just that the other driver admitted at the scene that they didn't see the light. I'd like this claim handled as quickly as possible.

Q: Thank you. That concludes the statement.
