Claim Notes

Claim number:	C-1339
Claimant:	James Castillo
Adjuster:	Darin Tyler

7-18-23
Claim opened after the insured reported a collision at an intersection while turning left. The claimant, represented by counsel, was the other party's passenger and reported neck pain at the scene.

7-22-23
Reviewed the policy declarations and confrimed the driver is named on the policy and the coverage was in force on the reported loss date.

7-25-23
Police report obtained. Responding officers and a witness statement confirm the claimant was seated in the vehicle at the time of impact.

8-9-23
Photographs submitted by the insured show the damage to the front quarter panel and bumper, which fits the described impact angle and speed.

9-27-23
Spoke with the appraiser, who reports no earlier damage to the vehicle is on file and nothing indicates the damage predates the coverage start.

10-18-23
No independent witnesses have come forward beyond the officer's observations and the statement already on file. Photos confirm some scene details but not the full sequence.

10-30-23
Medical records received from the claimant's provider. The diagnosis of whiplash and the reported symptoms are consistent with the force of a collision of this type.

11-12-23
Counsel's demand package references a prior neck strain several years ago. Records show it was minor, in the same general area, and healed completely with no lasting complaints.

11-18-23
Treatment followed a typical course of physical therapy and medication. Billing and notes show visit frequency tapering as the claimant's range of motion and pain improved.

12-5-23
Claimant's recorded statement, taken through counsel, adds a few minor details about seating position and the moment of braking. The core account of the collision has not changed from the initial report.

1-1-24
Reviewed the medical timeline against the vehicle damage and the account. The injury, treatment pattern, and vehicle damage all line up with the reported loss.

1-30-24
File summary prepared for the supervisor. Liability and coverage are straightforward, and the claimed injury appears consistent with the documented impact. Next step is to evaluate the settlement demand from counsel.

Recorded Statement

Claim number:	C-1339
Statement of:	James Castillo
Taken by:	Darin Tyler
Date:	6-20-23

Q: Thank you for taking the time to speak with me today. This recording is for our claim file. Can you confirm you're comfortable with us recording this statement?

A: Yes, that's fine.

Q: Please describe where you were when the collision happened.

A: I was driving through an intersection in Pearland, Texas, and I was turning left onto the cross street.

Q: What was the traffic signal showing for you as you made the turn?

A: It was a green light, but the light had been green for a while, and I was waiting for a gap in oncoming traffic before I went.

Q: Tell me what you saw when you started the turn.

A: An oncoming vehicle came through the intersection and I thought I had room, but it struck the front driver's side of my car as I was crossing into the lane.

Q: Did you see the other vehicle before you began the turn?

A: I saw headlights further back, but I judged the distance wrong. I should have waited longer.

Q: Were you injured?

A: Yes. My neck snapped forward and then back when we hit. I've had stiffness and pain at the base of my skull since then, and my shoulders are sore.

Q: Have you souhgt medical treatment?

A: I went to an urgent care clinic the same day, and I've been seeing a physical therapist twice a week since.

Q: Did you have any passengers in your vehicle?

A: No, I was alone.

Q: Is there anything else you'd like to add to your statement?

A: Only that I want to get my car repaired and get back to normal. I'm willing to provide my medical records.

Q: Thank you. This concludes the statement.
