Description of the accident (claimant's words)

I was backing out of a space in the parking lot of a grocery store in Katy, Texas, when my rear bumper met the front of a pickup that was rolling slowly down the aisle behind me. I stopped right away, checked my mirrors, and saw the other driver step out. I have been the registered driver on this policy for several years, and I gave the adjuster my details the same afternoon. Since then, every time I have described what happened, to the store staff, the police officer who came to the scene, and the claims representative, I have told the same account: I was reversing slowly, I did not see the truck until contact, and I felt a sharp jolt through the steering wheel. My left wrist struck the door frame during the impact, and urgent care later confirmed a fracture. I am providing photos of the damage and the medical discharge papers with this form.
