Claim Notes

Claim number:	C-1341
Claimant:	Stephanie Olson
Adjuster:	Christopher Wong

1-20-24
Claim reported by the insured this morning after a sideswipe on a multi-lane road while changing lanes. The insured described the other vehicle drifting into their lane as they merged, and the insured is the named driver on the policy.

2-14-24
Spoke with the claimant, who is not represented by an attorney, and confirmed the account of the lane change and contact on the driver side. The claimant reprots neck and upper back discofmort and was seen at an urgent care clinic the same day.

3-6-24
Reviewed the photos submitted by the insured. The damage to the rear quarter panel and side mirror lines up with the described impact, and no earlier damage to the vehicle is known from our records or the inspection.

3-25-24
Obtained statements from the other driver and a passenger in a nearby vehicle. Both confirm the accident happened as the claimant described, with the other car moving into the adjacent lane during the change.

4-2-24
Claimant's account has stayed consistent across each conversation so far. The claimant was unsure which seat position they occupied at the moment of impact, and I have noted that for follow-up without treating it as a concern about the claim.

5-8-24
Medical records show a back strain with a force and direction that fit the crash. The claimant had treatment for the same area about eighteen months ago, and that earlier condition is adding to the current complaints.

6-18-24
Treatment has followed a typical course of physical therapy and medication, with symptoms easing steadily as the claimant improved. The provider's notes indicate the pace of recovery is in line with similar soft tissue injuries.

8-13-24
Confirmed with underwriting that the policy was in force at the time of loss and that nothing in the file points to damage predating coverage. The coverage check is complete.

8-14-24
Claim reviewed and assessed as consistent across the vehicle, the scene evidence, and the medical picture. The file is ready for the next review step, with the prior back condition noted in the injury assessment.

Recorded Statement

Claim number:	C-1341
Statement of:	Stephanie Olson
Taken by:	Christopher Wong
Date:	1-17-24

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather just give my statement without my name on it, if that's alright.

Q: That's fine. Can you tell me where you were when the collision happened?

A: I was in Pasadena, Texas, on a multi-lane road, heading toward the freeway entrance.

Q: What were you doing right before the impact?

A: I was changing lanes to move into the right lane because I needed to get over for my exit. I checked my mirror and it looked clear, so I signaled and started to move over.

Q: What happened next?

A: A vehicle in the lane I was moving into came up alongside me and we sideswiped each other. I felt a jolt and heard metal scraping. I pulled to the shoulder right after.

Q: Did you see the other vehicle before contact?

A: Not clearly. It was in my blind spot, I think. I didn't see it until it was already there.

Q: Were you injured?

A: Yes, my lower back. It tightened up right away and by the next morning it was hard to bend or stand for long periods.

Q: Have you sought medical care?

A: I've been to a clinic and I'm still doing physical therapy. The doctor said it looks like a muscle strain, and I'm supposed to keep going to appointments.

Q: Is there anything else you want to add?

A: Only that I'm willing to share my photos from the scene and any documents the clinic has gvien me.

Q: Thank you. This concludes the statement.

A: Thank you.
