Claim Notes

Claim number:	C-1342
Claimant:	Samuel Fuller
Adjuster:	Darin Tyler

07/21/2023
The policyholder reported being rear-ended while stopped at a light. Both vehicles were drivable, so no tow was needed.

07/30/2023
The claimant contacted us without a lawyer and described neck and back pain as severe, asking how to start a medical payments request.

08/09/2023
The other driver gave the same acocunt of the rear impact that the policyholder did, and the witness statements line up with both.

08/22/2023
Photos of both vehicles show damage that is mostly in line with the impact described. A few old scratches may predate this crash, so I have noted them separately.

08/28/2023
The police report confirms the claimant was riding in the vehicle at the time of the collision.

10/19/2023
The claimant has told the same account in every conversation so far, with the same sequence of events and no changes in the details.

10/28/2023
Treatment records show a usual course of care that tapered off as the patient improved. No earlier injury to the same body area is known from prior calims or medical history.

12/08/2023
The severity of the claimed injury does not fit the very light impact shown in the photos and reports. I have flagged this gap for supervisor review.

12/28/2023
Policy history shows nothing suggesting the damage happened before coverage began. The driver lives with the policyholder and is covered as a household member.

02/19/2024
Liability appears clear based on the evidence collected. The injury portion stays open pending further medical review and the flagged inconsistency.

Recorded Statement

Claim number:	C-1342
Statement of:	Samuel Fuller
Taken by:	Darin Tyler
Date:	07/04/2023

Q: Thank you for taking the time to give this recorded statement. Please state your full name for the record.

A: I'd rather just keep it to my situation, if that's okay.

Q: That's fine. Can you tell me where you were when the collision happened?

A: I was driving on the main road in Conroe, heading toward the shopping center. Traffic had slowed down ahead of me, so I came to a stop.

Q: Did you stop completely before the impact?

A: Yes, I was fully stopped at a light. I'd been sitting there for maybe ten seconds when I felt the hit from behind.

Q: What happened to your vehicle after the impact?

A: My car lurched forward and my head snapped back. The airbags didn't deploy, but the seatbelt locked up hard across my chest.

Q: Did you get out of the vehicle and speak with the other driver?

A: I got out, yes. The other driver said they looked away for a second. We exchanged information, and an officer came to the scene.

Q: Have you sought medical treatment since the collision?

A: I went to an urgent care clinic the same afternoon. They diagnosed a back strain, mostly in the lower back, and told me to rest and take anti-inflammatories.

Q: Are you still experiencing symptoms?

A: Yes. Sitting for long periods is hard, and I get a sharp ache when I bend or lift anything heavier than a grocery bag. I've started physical therapy twice a week.

Q: Have you missed any work because of your injuries?

A: I've been out for a few days and I'm working reduced hours now. My doctor has given me a note about lifting restrictions.

Q: Do you have any prior injuries to your back?

A: Nothing serious. I had some stiffness years ago from a desk job, but nothing that needed a doctor.

Q: Is there anything else you'd like to add?

A: Only that I want my car repaired and my medical bills looked at fairly. I'm trying to get back to normal.

Q: Thank you. This concludes the statement.
