Description of the accident (claimant's words)

I was pulling into a space near the entrance of a shopping center parking lot in Pearland, Texas, going slowly, when aonther vehicle backing out of a neighboring space struck the driver's side of my car. The impact was not severe, but I felt a sharp pain in my right knee as I braced against the door frame. I stayed at the scene, exchanged information with the other driver, and told the responding officer exactly what happened. In the days that followed I went back over the events several times and remembered a few more minor details, such as whree the other car's headlights were positioned, but the core sequence has remained the same from my first description to this one. I am the named driver on the policy listed for this vehicle, and I am submitting this account for the knee injury I sustained.
