Claim Notes

Claim number:	C-1345
Claimant:	Leonard Reed
Adjuster:	Valerie Rodriguez

6-9-23
First notice of loss received from the claimant reporting a low-speed head-on collision at a residential intersection. The claimant reports neck and back strain and is not represented by an attorney.

8-4-23
Confirmed the driver is listed on the policy as a named driver and that coverage was in force at the time of the loss. Nothing in the file suggests the vehicle damage predates the policy start.

8-29-23
Obtained the police report, which places the claimant in the vehicle at the scene. Statements from two independent witnesses and the other driver describe the collision in the same sequence as the claimant.

9-2-23
Reviewed scene photos. The vehicle damage is largely consistent with the described impact speed and direction, and no earlier damage to the vehicle is on record.

9-26-23
Spoke with the claimant by phone about the injury. The account matched the first notice of loss in every detail, and the reported neck and back strain is a plausible result of a collision of this type.

11-19-23
Claimant referred to a primary care porvider for evaluation and started a standard course of physical therapy. Treatment notes show steady improvement and a gradual reduction in visits.

11-27-23
Checked prior claims and medical history. No earlier injury to the neck or back has been identified, and the claimant has not reported any other recent accidents.

1-9-24
Treatment has tapered off as the claimant has improved, consistent with the expected recovery timeline for this type of soft tissue injury. File remains open pending final medical update.

Recorded Statement

Claim number:	C-1345
Statement of:	Leonard Reed
Taken by:	Valerie Rodriguez
Date:	5-30-23

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision you reported in Houston, Texas. Please state your full name for the record.

A: I'd rather just go by my first name for now, if that's okay.

Q: That's fine. Can you walk me through what happened when the vehicles collided?

A: I was driving north on a two-lane road, going maybe twenty-five miles an hour because of the traffic. The other car came over into my lane and we hit nose to nose. It wasn't a hard impact, but it was enough to push my car back a bit and jolt me forward.

Q: Did your airbags deploy?

A: No, they didn't. My seatbelt was on, and I didn't hit anything with my head.

Q: Were you able to get out of the vehicle on your own?

A: Yes, but I felt stiff right away. My neck was sore and my lower back started tightening up within an hour or so.

Q: Have you sought medical attention since the collision?

A: I went to an urgent care clinic that same afternoon. They checked my range of motion, gave me a neck brace for a couple of days, and told me I had a neck and back strain. I've been doing physical therapy twcie a week since then.

Q: Did you have any neck or back problems before this collision?

A: Nothing serious. I had some occasional stiffness after long days at my desk, but nothing that needed treatment or kept me from working.

Q: Are you currently missing work or limited in your daily activities?

A: I've been working, but I've had to take a few breaks and I can't lift heavy things like groceries without pain. Sleeping is harder too.

Q: Is there anything else you'd like to add to your statement?

A: Just that I'm trying to follow the treatment plan, and I'm hopeful I'll keep improving.

Q: Thank you. This concludes the recorded statement.
