Police report reviewed. Responding officers confirm the claimant was present in the vehicle at the scene, and the other driver's statement matches the claimant's description of how the impact occurred.

Recorded Statement

Statement of:	Karla Wilson
Taken by:	Valerie Rodriguez
Date:	11/11/2024

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision you reported in Pearland, Texas. Please state your full name for the record.

A: I'd rather just go by the claimant on this one, if that's okay. I'm not comfortable giving my full name on tape yet.

Q: That's fine for now. Can you describe where you were when the collision happened?

A: I was driving on a two-lane road hedaing toward a shopping center. It was around midday and the traffic was light.

Q: Can you walk me through what happened right before impact?

A: The other car drifted into my lane as it came around a curve. I braked and steered right, but we still met nose to nose. It wasn't a hard hit, more like a jolt, but the setabelt grabbed me hard across the shoulder.

Q: Did either vehicle leave the roadway, and did airbags deploy?

A: No, neither car left the road. The airbags didn't go off. Both cars were drivable at first, though the front ends were pushed in.

Q: Where do you feel injured now?

A: My right shoulder. It's sore when I raise my arm above my head, and I've had some stiffness in the neck since then. I saw a doctor the same afternoon and they gave me a sling and some medication.

Q: Have you had any prior problems with that shoulder or neck?

A: I had some soreness a couple of years ago from lifting boxes at work, but it resolved and I hadn't been treated for it since.

Q: Thank you. Is there anytihng you'd like to add before we finish?

A: Just that I'm trying to get my treatment going and I'd appreciate a prompt response. That's all I have.

Q: Thank you for your time. This concludes the statement.
