Bodily Injury Unit

Claim Notes

Claim number:	C-1347
Claimant:	Michelle Young
Adjuster:	Alison Sweeney

05/12/2024
Claimant reported a low-speed head-on collision and stated that a wrist injury was sustained at the scene. The claimant is not represented by an attorney and has been informed of the claims process.

06/09/2024
Ploice report and two independent witnesses confirm the claimant was inside the vehicle at the time of impact. The other driver's account matches the claimant's description of how the collision occurred.

10/17/2024
Photographs of the vehicle show front-end damage consistent with the reported impact. No prior damage to the vehicle is known, and nothing in the file suggests the damage predates the polciy coverage period. The driver is named on the policy.

10/26/2024
The reported wrist fracture is consistent with the type and force of a collision of this kind. Medical records show no prior injury to the same area of the body.

11/14/2024
The clamiant later provided additional minor details about the sequence of events, but the core account has remained the same across all statements. Witness statements and photographs continue to support the description.

11/27/2024
Treatment followed a typical course, with symptoms improving steadily and care tapering as recovery progressed. No further medical action is currently required, and the file will be reviewed upon receipt of the final treatment summary.

Recorded Statement

Claim number:	C-1347
Statement of:	Michelle Young
Taken by:	Alison Sweeney
Date:	05/14/2024

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather not give my name on a recording, but you can note that I'm the driver of the vehicle involved.

Q: That's fine. Can you describe where the collision happened?

A: It was in Conroe, Texas, at a two-lane road with a slight curve. It was a low-speed collision, maybe ten or fifteen miles an hour when we met.

Q: Where were you traveling, and what was the other vehicle doing?

A: I was heading in my lane and the other car drifted over the center line. We ended up nose to nose. Neither of us was going fast, but the impact was enough to set off the airbags on my side.

Q: Did you have any warning before impact?

A: I hit the brakes as hard as I could, but there wasn't time to avoid it. I felt a jolt and my right hand slammed into the steering wheel.

Q: Did you seek medical attention afterward?

A: Yes, I was taken to an urgent care clinic that same afternoon. They X-rayed my wrist and told me it was fractured. I've been in a cast since then.

Q: Are you still under treatment?

A: I have a follow-up appointment next week with an orthopedic spceialist to check the healing and decide whether I need physical therapy.

Q: Has anything else about the accident been btohering you, such as neck or back pain?

A: My neck is a little sore, but nothing serious. Mostly it's the wrist that's keeping me from work and daily tasks.

Q: Thank you. Is there anything you'd like to add before we conclude?

A: No, I think I've covered it. I just want to get my car repaired and get my wrist healed.

Q: Thank you for your time. This concludes the statement.
