Injuries reported:	wrist fracture
Investigating officer:	Officer Daniel Morton, Badge 1032

Occupants of each vehicle

Vehicle	Seat	Name
Vehicle 1 (insured)	Driver	Michelle Young
Vehicle 2	Driver	Julie Arnold

Officer's narrative

Driver 1 was traveling southbound on a two-lane roadway in Conroe, Texas, when the vehicle crossed into the northbound lane and made contact head-on with a sedan operated by Driver 2. The impact was low in speed, and both vehicles remained largely upright with no airbag deployment reported. Driver 1 stated that the left wrist struck the steering assembly during the collision, and the nature of the injury is consistent with that description and with the force of the contact observed at the scene. Driver 2 independently described the crash in the same sequence, and two independent witnesses gave statements that match. Officers photographed both vehicles, and the damage to the front end of each is consistent with a frontal impact of this type. No prior damage to either vehicle was noted in the reporting officer's review. The Passenger, seated in the front right seat, was present at the scene and confirmed to officers that Driver 1 was the operator at the time. Driver 1 is listed as a named insured on the policy covering the vehicle involved. No citations were issued at the scene pending further review.
