Claim Notes

Claim number:	C-1348
Claimant:	Colleen Jones
Adjuster:	Alison Sweeney

1-13-25
Claimant reported a rear-end collision at a low-speed intersection and described being struck from behind while stopped at a signal. Claimant stated neck pain and stiffness began within hours and was seen at a clinic the same day. Claimant is not represented by an attorney and has been cooperative so far.

2-19-25
Reviewed the police report, which places the claimant's vehicle at the scene and records the rear impact as described. Two independent witnesses in the report give consistent accounts of the stop and the following vehicle's failure to slow.

3-15-25
Received photos from the claimant and the other driver showing rear-end damage to the claimant's vehicle. The damage pattern lines up with the impact described and with the force one would expect at this speed.

3-18-25
Spoke with the ohter driver, who confirmed the collision happened as the claimant described it. The other driver's statement adds no detail that conflicts with the claimant's account.

4-4-25
Contacted the claimant to review the medical records from the initial clniic visit. Diagnosis is whiplash-type soft tissue injury, which is a typical outcome for a rear impact of this kind.

4-20-25
Checked the vehicle's history and found no prior damage on file. Repair estimate was reviewed and the listed repairs correspond to the damage in the photos.

5-17-25
Confirmed with the claimant's physician's office that treatment has followed a usual course, with physical therapy and then a taper as symptoms improved. Claimant's prior records show a minor strain in the same area years ago that resolved fully, which is noted and does not appear to be affecting the current claim.

6-15-25
Claimant's account has stayed the same across every call, email and recorded statement so far, including the timing of symptoms and the route taken that day.

6-25-25
Verified with the policy records that the driver involved is named on the policy and that the policy was in force on the date of loss. Nothing in the file suggests the vehicle damage predates coverage.

7-10-25
Reviewed treatment progress with the claimant, who reports steady improvement and fewer missed days from work. Medical notes support the taper in visit frequency.

8-22-25
Claim is progressing normally. Liability appears clear, the injury and damage fit the accident, and the file is ready for settlement evaluation based on the documented treatment course.

Recorded Statement

Claim number:	C-1348
Statement of:	Colleen Jones
Taken by:	Alison Sweeney
Date:	1-9-25

Q: Thanks for taking the time to speak with me today. This call is being recorded for the claim file. Can you please state your full name for the record?

A: I'd rather just go by my first name for now, if that's all right.

Q: That's fine. Can you tell me where you were when the collision happened?

A: I was stopped at a light on a main road in Sugar Land, near one of the big intersections by the shopping center. I was in the left lane waiting to turn.

Q: Okay. What happened next?

A: The light was red and I had been sitting there for a bit. Then I felt a hard jolt from behind. The car was pushed forward into the intersection area a little bit.

Q: Did you see the vehicle that hit you before the impact?

A: No, I never saw it coming. I was looking at the light and my phone was in the cup holder. I didn't see anything in the mirror until the moment it hit.

Q: Did you get out of your vehicle and speak with the other driver?

A: Yes, he came over and said he didn't see that the traffic had stopped. He seemed shaken up but okay. We exchanged information and the police came to the scene.

Q: How are you feeling physically since the collision?

A: My neck is really stiff and sore, and the pain goes up into my head sometimes. I've had headaches most days. Turning my head to check my blind spot is hard now. I went to urgent care the next morning and they said it looked like whiplash.

Q: Have you been seeing a doctor or therapist since then?

A: I have a follow-up appointment next week and I'm doing some physical therapy exercises at home for now.

Q: Thank you. Is there anything else you'd like to add?

A: Just that I was following the rules and I want my medical bills taken care of. I'm still working out how much time I'll need off.

Q: Understood. Thank you for your cooperation today. We'll be in touch with next steps.
