Officer's narrative

Driver 1 was stopped at a traffic signal on a League City, Texas roadway when the vehicle behind, opreated by Driver 2, struck the rear bumper. Passenger, seated in the front passenger position of Driver 1's vehicle, reported immediate pain in the neck and lower back following the impact. The force of the collision appears consistent with the injuries described, and the damage to the rear of Driver 1's vehicle matches the impact as reported at the scene. Officers observed no prior damage to the vehicle that would suggest an earlier incident. Driver 1 is listed as the named insured on the applicable policy. Photographs taken at the scene confirm several details of the collision, though no independent witnesses were located to provide a separate account. Both officers on scene and the drivers involved confirmed that Passenger was present in the vehicle at the time of the collision. Passenger was evaluated at the scene and transported for further medical care. No citations were issued at the time of this report, and the investigation remains open pending additional statements.
