Claim Notes

Claim number:	C-1350
Claimant:	Sarah Perez
Adjuster:	Christopher Wong

8-7-24
The claimant reported a rear-end collision at a signalled intersection and a knee injury. The claimant is not represented by an attorney, so all communication is directly with the claimant.

8-10-24
Police attended and filed a report. The responding officer and two independent witnesses stated that the claimant was not inside the vehicle at the time of impact, which conflicts with the initial account and needs follow-up.

10-1-24
Photos from the scene and the ohter driver's statement both match the descriptoin of how the collision occurred. The other driver's insurer has been notified.

11-23-24
The calimant was asked to clarify their position at impact. In a follow-up call the claimant added a few minor details, such as the approximate speed and the lane positions, but the core account of events did not change.

12-14-24
The driver named on the policy confirmed the coverage was active at the time of loss. Nothing in the file suggests the vehicle damage predates the policy start.

1-5-25
No prior damage to the vehicle has been identified in the records or inspection. The repair estimate is under review, and it is not yet clear whether all listed damage came from this impact.

1-14-25
The claimant reoprted the knee injury after the collision and was seen at urgent care. The injury pattern appears consistent with the force and direction of the impact.

2-2-25
Medical records show a standard course of physiotherapy, and the claimant's reported pain has steadily decreased with treatment. No earlier injury to the same knee is known from the claimant's history or prior claims search.

2-19-25
Treatment is tapering off and the claimant reports improving mobility. The file will be reviewed again once the final treatment notes are received.

3-2-25
The claim remains open pending the repair estimate review and the resolution of the discrepancy about the claimant's position in the vehicle at impact.

Recorded Statement

Claim number:	C-1350
Statement of:	Sarah Perez
Taken by:	Christopher Wong
Date:	7-9-24

Q: Thank you for taking the time to give this recorded statement. Please state your full name for the record.

A: I'd rather just keep it to my role in the accident, if that's okay.

Q: That's fine. Can you tell me where you were sitting when the collision happened?

A: I was in the front passenger seat of my friend's sedan. We were stopped at a red light on the main road in Pasadena, Texas, when a pickup truck hit us from behind.

Q: Did you see the pickup coming before the impact?

A: Not really. I was looking at my phone. I heard tires squealing for a second and then the jolt came. My head snapped forward and then back.

Q: Were you wearing your seatbelt?

A: Yes, I was buckled in the whole time.

Q: Tell me about your injuries. Where did you feel pain first?

A: My right knee hit the dashboard. It swelled up pretty fast, and by that evening I could barely bend it. My neck and upper back were sore too, but the knee is the worst of it.

Q: Did you seek medical attention?

A: Yes, I went to an urgent care clinic the same day. They took X-rays and told me to see an orthopedic doctor. I have an appointment set up for next week.

Q: Are you still experiencing pain or limited movement in the knee?

A: Yes. Stairs are hard, and I'm using a brace when I walk for longer distances. I've had to take time off work because standing for long shifts is too painful.

Q: Thank you. Is there anything else you'd like to add about the accident or your injuries?

A: Just that I want to make sure the other driver's insurance knows I'm taking this seriously. I'm still working through the medical side of things.

Q: Understood. Thank you for your time today.

A: You're welcome.
